

Emarat Consultants and Developers is a leading real estate, tourism and hospitality management group with several years of industry experience and a longstanding history of capitalising asset value. We are professionals, innovators and most importantly a trusted partner. After the success of projects such as Ramada & Savoy Hotels in Pakistan and several overseas based projects, last year Emarat ventured yet again in Pavilion-1, Eighteen, to achieve another milestone to boost the trust and confidence of its investors/clients, and has successfully sold out the entire project in less than a year. Meanwhile, the absence of modern, fitting living spaces in Swat was seen as an opportunity and Emarat came up with building a world-class resort, Emarat Blue, to cater for the needs of millions of tourists visiting the scenic valley. Now, once again, Emarat is set to execute the replica of the cosmopolitan appeal of spacious apartment living with the adequate privacy, stunning views & service of Pakistan's finest luxurious development and environment, accompanied by the top-notch specifications and round the clock security, created for people who expect the very best, to Faisal Town, Islamabad.
